Renlita Overhead Doors

SLIMLINE & MICRO

Ideal Small Aperture Shutter

The Slimline and Micro Shutters are suitable for a variety of commercial usages. Whether you choose the Micro Shutter with slimmer slats or the Slimline with larger slats, both options offer strength, durability and style.

Great Skin Deserves Great Colour

Applications:

The Slimline & Micro Shutter is suitable for many commercial applications including the following:

- Shopping centres
- Bar tops
- Shop fronts
- Bottle shops
- Clubs
- Arcades
- Countertops
- Doorways
- Sports complexes

Opening size - Slimline Up to 3.0m high x 2.4m wide
- Micro Up to 1.5m high x 2.4m wide

Specifications:

Curtain - Shall be constructed from extruded aluminium slats with a face depth of 22mm x 1.5mm Micro and 42 x 1.5mm Slimline. Nylon end clips shall be fitted to alternate slats to prevent lateral movement and provide smooth operation and long life performance, free from lubrication.

Side Guide - 37mm x 25mm extruded aluminium channel incorporating optional Nylofelt infill.

Locking - Shall be centrally mounted, two-way mortice key lock or sliding shoot bolt locking mounted within the bottom rail.

Bottom Rail - 70mm x 48mm extruded aluminium section incorporating locking device and optional PVC buffer.

Brackets - Manufactured from 90mm x 40mm mild steel.

Roller Drum - Manufactured from 100mm or 150mm spiral ducted tube attached to ball bearing drum wheels rotating on a 34mm steel shaft. The shaft shall be fitted with helical springs designed to counterbalance the curtain weight throughout its operation. The drum shall be designed to give minimum deflection over the span.

Bundle Sizes - A minimum of 100mm should be allowed below the bundle for correct door operation.

Finish - The Slimline and Micro shutters are available in both anodised and powdercoat colours.
